August 12, 1992

Dear Fellow Shareholder;

Through perseverance and diligent effort our company successfully emerged from its long term Chapter 11 Proceeding on June 17, 1992 when the Bankruptcy Court approved the Debtors Second Amended Plan Of Reorganization. Your management wishes to thank you for your patience and support during this most difficult period.

In addition to the successful reorganization, we also have been fortunate enough to add to our capital base and our business base by entering into an agreement with LA Entertainment, Inc. and Turbo, Inc., involving the acquisition of Turbo, Inc. and its wholly owned subsidiary, Contemporary Resources, Inc. The business aspects of this acquisition place our company into the Airline and Hotel supply business. The present base of business of Contemporary, the operating entity, is at the rate of $7 Million annually and profitable. This shows a growth of approximately 50% from the previous year. The effective date of this transaction is June 30, 1992.

The asset base of the company and the net worth as of the June 30, 1992 balance sheet qualify the company for NASDAQ listing. An application will be made as soon as the auditors complete their work. However, the company cannot assure you that it will be accepted by the NASDAQ system.

The new management of the company will consist of a Board of Directors combined from the existing group and adding selected participants from Contemporary. The new President will be Murray Goldenberg, a Chartered Accountant and experienced corporate executive, who is the CEO of Contemporary and the undersigned will continue as Chairman of the Board.

The Approved Plan calls for a reverse stock split to existing shareholders. This stock split will require that all existing shareholders send in their old shares to the transfer agent,

OTR Transfer Co.
1130 SW Morrison # 250
Portland, OR 97205

For every thirty (30) shares sent in, one new Unit will be issued. The Unit will consist of one share of New Common Stock and one Class A Warrant. These will be printed and ready for issue as soon as CUSIP numbers have been issued for these securities and the old securities have been received by OTR (the transfer company).

The company expects to continue along a growth oriented program and is exploring other profitable and related entities to assist in that program.

Very truly yours,

Daniel Lezak, President

February 17, 1988

Dear Fellow Shareholder:

Production is underway at the Sixteen to One. In mid-December the Kanaka Creek Joint Venture which operates the mine (and in which the Company has a 45% stake) began milling stockpiled ore at a rate of 100 tpd. Mill grades have averaged .3 oz. per ton. In addition to mill tonnage, the mine is also producing high grade ore that is being carried in sacks to the mill. The high grade ore has averaged in excess of 700 oz. per ton.

Total production for December was 272 ounces. Production for January came to 180 ounces. The lower total in January was due in part to heavy snowfall restricting our access to the mill. Another factor affecting production was lower volume of high grade material mined. Until we develop more working places underground (see below) our high grade production, which historically has accounted for 75% of the total ounces from the mine, will be difficult to predict. Month to month variations in high grade ounces could be large - in some months we will have very low totals, other months we could see two month's worth of production.

Currently we are mining in four areas:

1) The 1575 stope where most of our production is located.

2) The 1767 raise where we are mining up into an area that has high grade potential.

3) The 1950 north drift which is being driven in a large quartz structure between the 1900 and 2100 levels in the mine, and

4) The 1950 south drift which is the other end of that drift.

All four areas show potential for high grade production.

Other activities at the mine include cleaning out the 49 winze and dewatering the mine to the 2200 level. We are interested in the 2200 level because accounts of the last days of the old Sixteen to One operation indicate miners were in a gold producing zone on that level when they stopped work in 1965.

Kanaka Creek Joint Venture

Under the terms of the Joint Venture Agreement the Company must contribute 45% of all operating and capital costs at the property after Royal Gold has spent $5,160,000. We anticipate Royal Gold reaching that total in May of 1988. At that point the Company will have to contribute its 45% share which totals approximately $900,000.

Until Royal Gold has recovered $5,160,000 in gross revenues from the property (excluding royalties and smelter charges) we are entitled to 10% of the revenues. We expect Royal Gold to recover its investment in late 1988 or early 1989. After that point we are entitled to 45% of the revenues.

The Company is currently investigating a number of alternatives for financing its share of the Sixteen to One, including preselling, at a discount, some of its gold production. We believe this is preferable to share sales or debt.

Other Operations

In late January the Company signed a Joint Venture Agreement with a privately held mining company in Illinois to explore and develop two heap leach properties in Southern Nevada and California. Our partners, Hardrock Mining and Minerals, Inc., must spend up to $300,000 in drilling, sampling, metallurgical testing and evaluation work before the Company has to contribute any funds. In return the Company puts up its interests in the two properties, the Sunny Jim and the Buster, and 300,000 shares of convertible preferred stock (convertible to restricted common at a rate of 12 to 1.)

Our program involving surface mapping and sampling is currently underway at both properties. We expect to have a better idea of the gold values at these locations in two months. Our feasibility study should be complete by mid-year.

With the commencement of production at the Sixteen to One the Company has achieved an important goal. We have put in operation an important underground mine that has the potential of providing significant revenues to the Company. Much remains to be done as the mill gradually builds to full production of 250 tpd. We have gained credibility as a mining company with this accomplishment and that will help us in all projects the Company undertakes henceforth.

Sincerely yours,

Walter A. Marting, Jr.
President

Rollover Waiver Election

(Complete If Applicable)

To preserve your right to roll over your Rollover IRA Account into a qualified plan (for example, your next employer's qualified plan), you must not make accumulation contributions to your "Rollover IRA," nor can you deposit a lump-sum distribution into an account which has been utilized as an "Accumulation IRA."

However, if you desire to have only one Individual Retirement Custodial Account, with the understanding that you will not be able to roll over any portion of this account to a qualified plan (even the portion that represents your original rollover), you may, by signing the Waiver below, elect to treat this account as an Accumulation IRA.

I have been informed by State Street Bank and Trust Company that, in order to preserve the right to roll over the distribution which I receive from a qualified plan, I must set up two separate Individual Retirement Custodial Accounts. One such account would consist only of those funds rolled over from the qualified plan, together with interest on those funds. The other account would consist of my annual contributions to an Accumulation IRA.

I understand that if I make any contribution to the funds rolled over from a qualified plan, or otherwise commingle rollover amounts with accumulation amounts, I will have relinquished the right to ultimately roll over the funds distributed to me to another qualified plan. State Street Bank and Trust Company has fully advised me of the implications of my decision, and it is my decision to establish only one Individual Retirement Custodial Account. My waiver is a knowing and intentional one, and I hereby release and hold harmless State Street Bank and Trust Company from any liability for any loss, damage, or injury which I may sustain as a result of my election not to establish two separate Individual Retirement Custodial Accounts.

IT IS AGREED BETWEEN MERRILL LYNCH, PIERCE, FENNER & SMITH INC. (MLPF&S) AND ITS CLIENTS:

(1) That all transactions are subject to the constitution, rules, regulations, customs, usages, rulings and interpretations of the exchange or market, and its clearing house, if any, where the transactions are executed, and if not executed on any exchange, the National Association of Securities Dealers Inc.

(2) That MLPF&S unless and until all obligations of the client to MLPF&S are discharged, may from time to time, and without notice to the client, pledge or repledge, hypothecate or rehypothecate, any or all securities or other investment instruments, now or hereafter held, purchased or carried by MLPF&S for the account of the client or deposited to secure the same, either separately or under circumstances which will permit the commingling thereof with securities carried for the account of other clients, for any amount whatever, either more or less than the amount due MLPF&S thereon, whether under general loans of MLPF&S or otherwise or may lend the same or deliver the same on contracts for other clients without MLPF&S having in its possession and control for delivery a like amount of similar securities or other investment instruments.

(3) That we will hold for your account securities or other investment instruments purchased and the proceeds of sales unless instructed otherwise.

(4) That unless the client indicates non-acquiescence in writing this agreement shall inure to the benefit of the successors of MLPF&S by merger, consolidation or otherwise and its assigns and MLPF&S is authorized to transfer the account of the client to any such successors or assigns.

(5) That bonds and preferred stocks which are callable in part and which we hold for clients (except for those in custodian accounts) are held in bulk segregation. In the event of a call, the securities to be called will be selected in an automated random selection in which the probability of a client's holdings being selected is proportional to the holdings of all clients of such securities held by us.

(6) That if shares loaned for a short sale are no longer available, we reserve the right to decide, by random selection, which positions will be subject to a buy-in.

(7) The responsibility for failure to cancel an existing open order rests with the client. Clients should be particularly mindful of this when entering a substitute order. Any transactions which result from the execution of any orders which the client has not instructed us to cancel will be entered in the client's account.

(8) When a security is "ex-dividend" for an ordinary cash dividend or interest, buy, sell stop, and sell stop limit types of orders will be reduced by the amount of the dividend unless otherwise specified. When a security is "ex-rights" or "ex-distribution," such orders will be reduced without exception. Sell, buy stop, and buy stop limit types of orders are unaffected.

- It is understood that the within and all other transactions made for your account by us contemplate actual receipt and delivery of the property for your account and payment therefor and that all property sold for your account is sold upon the representation that you have same in your possession actually or potentially. These transactions are made subject to the rules, regulations and customs of the board or exchange on which they are made and subject to any and all federal and/or state statutes to the extent that the same may be applicable thereto. The right is reserved by us to close transactions without further notice when, in our judgment, margins on deposit with us are below our requirements.
- If this transaction is a sale and the securities or other investment instruments are not already in our possession and do not represent a short sale, please forward them immediately to avoid possible premium payment on securities borrowed.
- Call features for municipal bonds may exist which could affect the yield; complete information will be provided upon request.
- MLPF&S trades for its own account as a block positioner and/or arbitrageur, and at the time of your transaction it may have had either a long or short position in this security which may have been partially or completely hedged.

- MLPF&S is a market maker and dealer for its own account in odd-lots, convertible bonds, preferred stock and in transactions executed on the Cincinnati Stock Exchange.
- The foreign currency conversion may have been effected by or through MLPF&S, or one of its affiliates, which may have profited in connection with such conversion.
- Where a foreign currency is indicated in the security description, information provided with respect to principal, interest, dividend and/or yield is subject to fluctuation in applicable foreign currency exchange rate(s) and costs.
- For clients who choose to convert from the currency in which the security or payment thereon is denominated, information provided with respect to principal, interest, dividend, and/or yield is subject to fluctuation in applicable foreign currency exchange rate(s) and costs.
